  76%

- **Servite Matriculation Higher Secondary School**   2018-2019
  HSC
  55.33%

- **Francis Xavier Engineering College**   2019-2023
  B.Tech(Information Technology)
  77%

Projects

- **Responsive Blog Website**
  A website that responds to the device that accesses it and delivers the appropriate output for it uses responsive design. Rather than designing multiple sites for different-sized devices, this approach designs one site but specifies how it should appear on varied devices.
- **To Do List App**
  ToDo List App is a kind of app that generally used to maintain our day-to-day tasks or list everything that we have to do, with the most important tasks at the top of the list, and the least important tasks at the bottom.
- **Registration Page**
  A registration page is a page where users can sign up for an account and a login page is one where users can log in to an existing account. This page is usually the first page that users see when they visit a website.
- **Temperature Converter**
  A temperature converter is a useful tool that allows you to easily convert between different units of temperature, such as from Celsius to Fahrenheit or from Kelvin to Celsius. This can be done using conversion formulas, which are mathematical relationships between two units
- **Portfolio Website**
  A portfolio website is a curated, online space that showcases your best work. It's one of the most practical and memorable ways to share your work with press, potential collaborators or employers. Much like your PDF portfolio, a portfolio website can be used when applying for jobs or internships.
